## 1. Various aviation qualifications

Management Pilot for ANZ  
Owner Operator Kellys @ Matarangi  
MFO Royal Tongan  
Built Shopping Centre @ Matarangi

. JP

Trust Member MVRFF  
MRPAssn  
Various Swimming Clubs and Assns Technical Officials  
1990 comm Games NZ

Chair MB Comm BD  
Cook 250 Chair  
Planning Whitianga Centre Upgrade  
Coroglen Purchase and upgrade

2. Presume this refers to Local Govt Act 2002. Refer Comm Bd section re advise Council on community views . Unincorp body directly funded by Council. Re economic social and cultural matters.

My relationship with both Local IWI is strong and personal. The settlement process is between IWI and Gvt and not for general public consumption at this time.

Ratepayers and Business are integral to one another

The great concern is human waste in the environment esp our seaside communities

Fiscal responsibility, Dispersement of Waste (green and human), St Johns relocation at H/H, ,Concession control in MB reserves

3. (a) Dont totally agree as all community groups are part of the leadership I have been part of the process and cont to pressure all agencies involved for the past 3 years  
(b) At this time two parks is sufficient until all relevant issues addressed  
(c) progressing well - charges need review  
(d) No further comment as per your question to stop further and erode human rights

3 cont. Walks external funding and should be no issue on MB ratepayer

Development. Prop owners have the right within the Rules ie RPA, Structure Plans, Dist Plans to progress their activities as is happening in and around H/H now

TCDC have appointed a consultant on Foreshaw development and H/H strategies as envisaged and agreed by HHRPAssn currently in progress

I anticipate Central Govt in time will intervene on these matters I do not accept the sewage to sea option should that arise, and support a review of standards for septic tanks, therefor a proper reticulated scheme should be considered for MB South .

I trust this is sufficient Rgds Paul Kelly
